

Circle the items that were made using aquatic organisms:

Fish Oil Supplement

Shells

Toothpaste

Sushi

Ice Cream

Pearls

Sponge

Salt

Calamari

Abalone Necklace

Observe the KELP FOREST. Then answer the next two questions.

Is the kelp rigid or flexible? Why?

---

---

Why or how does the aquarium make the waves move in this way?

---

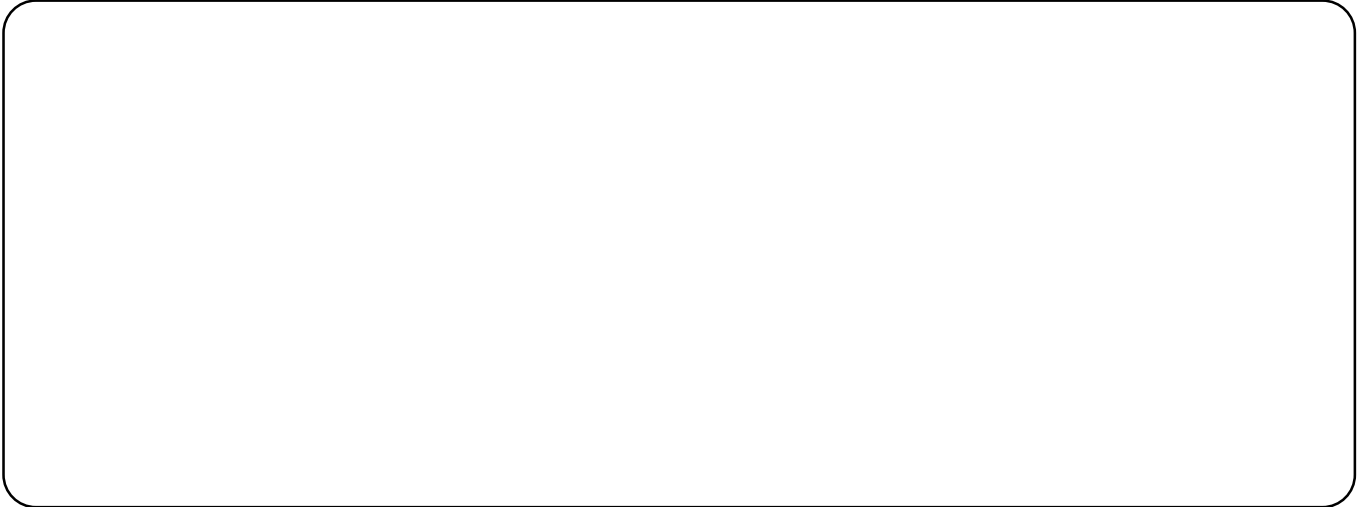

---

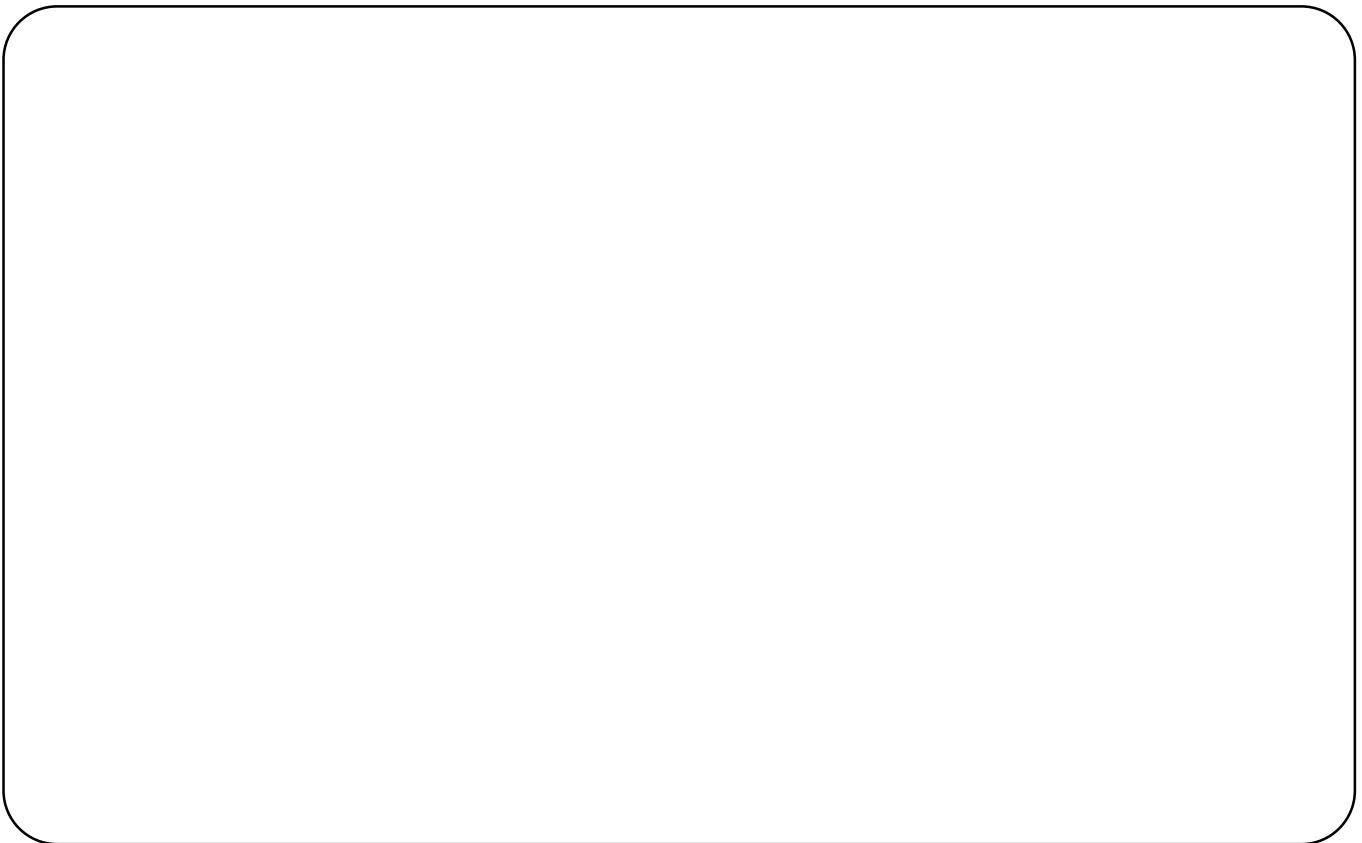

Observe the LIVING CORAL exhibit for 2 minutes. Do any of the animals interact with the sediment? If yes, how? Is the sediment *biotic* or *abiotic*?

Name two things that differ between the exhibits at the aquarium and the ocean.

**Name three human activities that have a negative impact on aquatic ecosystems. What is one thing you can do that would have a positive impact on aquatic ecosystems?**

**Draw a picture of your favourite ecosystem you saw at the Aquarium today.**

**STUDENT NAME:** \_\_\_\_\_
